Summary

Artificial Intelligence and Data Science undergraduate with a strong passion for problem-solving and innovation. Seeking an opportunity to apply my technical skills and creativity in real-world projects while continuously learning and growing in the field.

EDUCATION

Karpagam Institute of Technology, Coimbatore.	2023-2027
B.Tech Artificial Intelligence & Data Science CGPA : 8.00	
Montfort Matric Higher Secondary School, Ariyalur (HSC)	2022 -2023
Percentage(%) : 76	

SKILLS

Programming Languages : Python, Java, PostgreSQL
Web Development : HTML, CSS, Javascript.
Tools & Technology: Power BI, Excel, Azure, Git/ GitHub.

CERTIFICATIONS

- HTML Course conducted by IIT Bombay, with 77%.
 - AWS Academy Cloud Foundations .
 - **Microsoft Azure Fundamentals AZ-900 | Feb 2026.**
Certified in Microsoft Azure Fundamentals with foundational cloud computing expertise.
 - **Infosys Virtual Internship 6.0 (Sep 2025 - Dec 2025).**
Mode : online
completed a virtual internship project involving crop yield prediction using machine learning models and deployment through a Streamlit web application.
 - Hands on Python Machine Learning with Real World Projects – Udemy.
-

PROJECTS

AI AgriYield Predictor - Crop Yield Forecasting System

- Developed a machine learning-based crop yield prediction system using environmental and soil nutrient data.
- Applied data preprocessing, feature engineering, and trained regression models including XGBoost.
- Built a Streamlit web application for real-time yield prediction and deployed the model using Joblib.
- Conducted model performance analysis to ensure accurate and reliable predictions.

Technologies: Python, Pandas, NumPy, Scikit-learn, XGBoost, Streamlit

Mini ERP System - Academic Record Management Web Application

- Developed a Flask-based ERP web application to manage student and staff records.
- Implemented CRUD functionalities and designed an intuitive user interface.
- Used Git and GitHub for version control and project tracking.
- Developed a scalable application architecture to support future enhancements.

Technologies: Python, Flask, HTML, CSS, Git, GitHub
